

## ICT 0875 - Ictus Hand Intensifier

SABS Report No. 5546/0006/00

### Uses

For pumping Tophats, Rockprops and Pre-stress plates.

### Advantages

- Robust for mining conditions.
- Light weight – less than 12 kg.
- Easy to carry.
- Direct water supply or tank.
- Easy pumping to 15 MPa with built-in tank.
- 2-Way operation.
- Complete with 4m discharge hose.
- Heavy duty coupler.
- Gauge & release valve.
- Tank has an overflow for back pressure.

### Description

By changing adaptors, this pump can pump various applications namely; Tophats, Pre-stress plates, Rock Props and Hydro-bolts®

### Specifications

Detail	Specification
Weight	11.65 kg
Water Inlet	1"
Water Hose Outlet	3/8" Male
Hose Size	1/4"
Hose Length	4m
Flow Rate per Stroke	0.025 lt

### Technical Support

Minova RSA provides a technical advisory service by a team of specialists in the field. The service includes on-site assistance and advice, evaluation trials and laboratory investigations.

### Additional Information

Minova RSA is a specialist in the supply of high performance products for the mining and tunnelling industries.

The Minova RSA range of mining products includes anchoring and backfill systems, bagged cement products, high yield grouts, mine sealants, equipment and accessories.

Hydro-bolt is a registered trademark of New Concept Mining.

### Important Note

Minova RSA products are guaranteed against defective materials and manufacture and are sold subject to its standard terms and conditions of sale, copies of which may be obtained on request. Whilst Minova RSA endeavours to ensure that any advice, recommendation, specification or information it may give is accurate and correct, it cannot, because it has no direct or continuous control over where or how its products are applied, accept any liability either directly or indirectly arising from the use of its products, whether or not in accordance with any advice, specification, recommendation or information given by it.
